### **About BioLayer**

BioLayer has developed a high-throughput material development platform for the rapid design of novel materials for the biotechnology, diagnostics and pharmaceutical industries. Its current focus is the provision of material science based solutions which improve the way immunoassays are developed and manufactured. BioLayer's materials address critical challenges for life science research tools and diagnostic products, including increasing sensitivity and improving specificity and reproducibility. Please visit the BioLayer website for more information: [www.biolayercorp.com](http://www.biolayercorp.com).
